"Thank you so much for this wonderful organization! Ben had such a fantastic time yesterday! Every time we talk to him about it, he gets a big smile on his face. Because of his situation, the one thing he never gets to do is run and experience that feeling of speed. He loved it! What's more, it gave him such a feeling of empowerment. The entire rest of the day he wanted to do things, by himself, that he didn't normally do. He seemed to feel that he could conquer the world! Thank you so much for making that possible for him!" – Jana (Mother)
